

GRH HISTORY

Influenced by many years of experience in engineering, non-profits as well as carpentry and architectural design, owner/operator Ray Hammond has a rich, diverse background which contributes to the daily operations and growth of GRH Printing & Design.

“GRH” was chosen as the logo due to Ray and 2 other family members having GRH as their initials. The shape of the GRH logo came from Ray’s art background, filling shapes with words and letters. The logo was created 5 years prior to ever going into business, just waiting to find its place in the community.
